

The Avalanche.

O. PALMER, EDITOR & PROPRIETOR.
THURSDAY, AUG. 14, 1890.

Entered at the Post Office at Grayling, Mich., as second-class matter.

POLITICAL AND MISCELLANEOUS.

George M. Maltz, the retiring state treasurer, is booming J. M. Wilkinson for his place, and putting in good looks, too.—*Det. Journal.*

A number of state papers are industriously engaged in booming Senator John G. Barry, of Osage, for the land commissionership.—*Det. Journal.*

The election in Oklahoma territory Tuesday, resulted in a republican victory. Returns show a full vote cast, over 2,000 votes were cast in Guthrie. The legislature is Republican by a good majority, notwithstanding the farmers' Alliance cast a large vote.

The San Salvadorans made short work of the traitor Rivas. After his defeat he was captured and shot. "If the rebels and butternuts had been treated in the same manner, after the rebellion they would only have received their just dues."

A lot of old Kansas politicians started in a few months ago with the declaration that the office should seek the man, but nearly all of them are getting tired sitting around and waiting for it to come, and will soon put out their campaign point and go out after it.—*Kansas City Journal.*

Republicans in South Carolina believe they have a chance of carrying the State this year. It is only a fighting chance, however, if we may judge by the cheerful and unanimous way in which the Democrats are bling their boots with knives and their pockets with pistols.—*N. Y. Press.*

Southern papers keep declaring that the federal election bill can never be enforced in the South. With it can in the North and West, and this striking indignation of Southern bourgeois plainly shows the necessity of federal supervision as a prerequisite to honest elections in the South.—*Detroit Tribune.*

It is entertaining to observe that the very same Democratic papers which were assailing the Republicans in Congress only a little while ago for their "outrageous partisanship" in admitting the new States as Democratic. It is an illusive hope.—*Boston Journal.*

The apple crop is going to be a failure this year—as general a failure as has ever been known in this country. The crop in Ohio, Indiana, and the whole Ohio valley will be very small; Western New York reports the shortest crop ever known; and we have not heard of an area reporting a bountiful supply. Apples will be apples this fall.—*Blade.*

Bourbon enmity to free speech in Mississippi is illustrated by the assassination of a Republican candidate for no more important office than that of delegate to the constitutional convention. The murder of Mr. Cook, of Jasper county, is intended probably as a notification that the convention is to be solidly Bourbon in its composition.—*Blade.*

Carping critics can say what they may, the House displayed commendable judgment in affixing its approval to the Torrey Bankruptcy bill last week. Enacting a law that establishes a safer basis for credit transactions than has hitherto been enjoyed is wise legislation under any circumstances, and the business men of the country are to be congratulated on the partial adoption of their measure.—*Jewelers Review.*

The Democratic press is particularly vehement just at present in commiserating American farmers on the hardships to which they are subjected by the tariff which protects their wool, potatoes, vegetables and dairy products from foreign competition, says the Boston Journal. "It is noticeable, however, that none of our Democratic contemporaries cite the advantages which the farmers have obtained by the inauguration of a free trade policy in England. If our contemporaries are anxious for any information on this topic we would respectfully refer them to a recent article in the London Times discussing the state of English agriculture. Between 1869 and 1889 more than four and a half million English acres were given over to grass. In 1869, 49.5 acres out of every 100 in the British Isles were devoted to permanent pasture. In 1889, 55.5 out of 100 were being utilized for that purpose. Meanwhile more than a third of the acreage devoted to wheat has gone out of cultivation. The number of farm-horses had decreased 40,000 and the number of sheep 4,000,000. These are a few of the things which free trade has done for the English agriculturists. Let our Democratic contemporaries cite these figures if they will, and then ask the American agriculturists if they want to try the same experiment."

Frederic Items.

This week begins with beautiful weather, the change after last week's storm, which was of a severe nature and had it not been for the protection of forests, we are under, I believe, the village would have moved farther east, as it was the hail and wind broke some windows and did considerable damage. Mr. Kelley is quite ill through contracting a severe cold. Mr. Dupdas is slowly recovering from his accident and Mr. Haggerty also is recovering from his recent attack of quinsy.

Messrs. Reed and Charron's new saw mill has arrived and will be soon erected for operation and then some of the valuable hard wood will be manufactured. If some good enterprising firm would start a manufacturing establishment here, it would pay especially if our new railroad is completed, which looks quite promising at present.

One of the dogs of the village tried to board the through pullman excursion-train to Boston last week, but instead of taking the rear coach which is more safe, he tried the cow-catcher and consequently after the train went by they picked up the fragments for burial, about a basketful of carved and chopped dog—we haven't a sausage factory.

Mr. Lamb is visiting here, accompanied by his daughter, from Genesee county, he is also purchasing some of the luscious fruit which abounds in this locality. The ladies of Maple Forest, purpose holding a night-cup social and garden party at the residence of Mr. John Coventry, next Friday evening, the 15th inst. Everybody is invited to attend, good program, lots of ice cream, good supper and a good time is expected.

It is because "The Anglomaniacs" presents a novel aspect of New-York life with uncommon path and wit that the third part, in the August number of The Century, will be probably that portion of the magazine to which most readers will first turn.

The short story of the number, "The emancipation of Joseph Peloubet," by John Elliott Curran, introduces a Frenchman who turns his back in disgust on the Second Empire, starts a newspaper in New York which advocates emancipation of the slaves, and collapses, and who then returns to his trade of banking until the breaking-out of the war, when he enlists, and his ideals are realized and his life sacrificed. Few readers will reach the end of the second paper by Dr. T. H. Mann on his experiences as "A Yankee in Andersonville," without being profoundly touched by the pathos of his helpless journey to his home in Boston. The realistic pictures, made from the narrative of life in the prison-pens at Andersonville and Florence.

In the tenth part of "The Autobiography of Joseph Jefferson," the comedian writes most entertainingly of John Brongham, Edwin Adams, Charles Feliter, George Holland, and of other favorites who have not long been absent from the stage. John Muir, who writes too seldom in these days, contributes an important paper on "The Treasures of the Yosemite." The article is richly illustrated and there are maps to indicate the boundaries of the proposed enlargement of the Yosemite Park, by the creation of a new national park to preserve the sources of the waters that are such an indispensable feature of the old park. In "Topics of the Time" there is a discussion of the "Distaste for Solitude," of "The New School of explorers," as exemplified by Stanley, and a brief comment on Mistral and his poetic country of "provenance."

Besides the poems in "Brion-Brion," the number contains a charming poem on Shakespeare by Thomas Bailey Aldrich, entitled, "Guillemus Rex," and poems by Harriet Prescott Spofford, Frank Dempster Sherman, Edith Thomas, Bliss Carman, and Charles G. D. Roberts.

Michael Finerty of Edwards brought in the first grist of new wheat to Wm. Hisey's grist mill, Monday. Mr. Hisey pronounced it the best wheat ever raised in the county, and says the entire crop throughout this section is of the finest quality this year.—*West Dr. Herald-Times.*

The Otsego Co. Herald had an article in its last issue brating the members of the lower House of Congress for not taking the right action on the Original Package Bill. If he had read his exchanges he would have found out that the bill was put on its final passage in the House last Wednesday and received every Republican vote, but was opposed by the prohibition democrats, with whom he is now training.

All men engaged in a business or a profession are dependent in greater or less degree upon advertisement, no matter what form it takes. The publisher is able to advertise in the most effective manner, and the advertiser is able to reach his customers in the most effective manner. The doctor who throws out his sign advertisements to that extent. So does the lawyer. Each is glad of mention in the press calculated to advance his employment or to conduce hitherto. One must make a stir in the world or go to the wall. If he has pots or kettles or professional service to sell the fact must be made known in some way. The means ought to be a matter of individual judgment or preference.

Mr. N. McNeilson's boys drove their team of ponies through from Bay View to Grayling in two days.

The Republicans, of Grayling, twp. will meet in caucus at the Town Hall, at seven o'clock Aug. 14th, to elect delegates to the county convention, to be held Aug. 15th. By order of twp. committee.

Bay City is already filling up with Michigan Knights of the Maccabees and 5,000 members of the order spent last night in the city. All the morning trains were heavily loaded and from all appearances there are not less than 15,000 visiting knights there. Hon. D. P. Markey, of West Branch, the great mogul of the order, affairs were never more prosperous than at present.—*Det. Journal.*

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. TO LIMIT DEBATE.

Senator How introduced a rule in the Senate.

In the Senate, the 49th Senator How offered a resolution providing "that the rules of the Senate be amended by adding the following: 'When any bill or resolution shall have been under consideration for a reasonable time, and it is found that the Senate is unable to pass it, the Senate shall have the right to limit the debate thereon to such time as may be determined by the majority of the Senators present.' The question shall forthwith be taken without further debate, and the pending measure shall take precedence of all other business whatever. After the Senate shall have decided to close debate, no motion shall be in order but a motion to adjourn or to take a recess, when such motions shall be seconded by a majority of the Senate. When either of such motions shall have been lost, or shall have failed of a second, it shall not be in order to renew the same until one Senator shall have spoken upon the pending measure, or on any other matter which shall have intervened.' In the House on motion of Mr. McKinley of Ohio (by unanimous consent), the Senate Joint resolution was passed, and the House adjourned.

THE SENATE AND HOUSE.

What a Private Offered a General.

I was serving in a regiment under Gen. Grant when one of our men struck his captain, and was, of course, put under arrest and held up for court-martial. One day, just before the trial was coming off, he sent word to the Brigadier General that he had something of the greatest importance to communicate. The General went down to see him, or, rather, had the prisoner brought to his tent, and when they were alone he said: "Well, my man, you wanted to see me?" "Yes, General."

"You claim to have very important news?"

"I have, General."

"Well, out with it."

"Well, General, you know they brand Government mules and horses?"

"Yes."

"And that some of the boys who get an animal try to efface the brand and sell him?"

"Yes."

"Well, now, General, I've got a dead sure thing on that brand business. I can take one off in a week and never turn a hair."

"My proposition is this: Get Capt. B. to withdraw his charges, and I'll not only give you my receipt, but I'll agree to steal and sell a hundred mules a month and give you half the profits."

"Well, General, did I bring him on the spot, but the offer added an extra year to the sentence of the court-martial."—New York Sun.

Everything Goes Wrong

In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, imperfect assimilation, and so on, are the result. It is easy to prevent these consequences, and remove their cause, by a course of Hostetter's Stomach Bitters, which stimulates the biliary organ and regulates its action. The direct result is a disappearance of the pains beneath the ribs and the relief of the bowels. The bitters also purifies the blood, and cures the skin, which characterizes liver complaint. Sores, dandruff, and a regular habit of body are blessings also secured by the use of this celebrated restorative of health, which imparts a degree of vigor to the body, which is not otherwise obtainable.

Don't let your druggist sell you some other kind of worm medicine. None but are so safe and yet so sure.
